Mr Emerick -

The above is only of the Aldie school.

There will be 25 Anola children in grade 5 now in Mrs Fields room to be added to our grade 6. Also there will be 35 Anola Grade 4 children now in Anola who will be here in Grade 5 next year. I have placed the Anola group to one side. Of course this is only in case the same situation exists next year.

No. of pupils from Children's Haven estimated 20

Total 456

Do you think "additions" to first grade are accurate? It is as accurate as it can be without contacting each home. We have names of 62 pupils who are supposed to be old enough to enter school this fall. This information was secured by the teachers from the students.

Date April 7, 1955

Principal Charles S. Monroe

The above is accurate information and not one additional pupil has been added. The number of pupils from Children's Haven is an estimate as you can see and we believe a very conservative one as it could easily increase beyond this figure before the year is out. We know of 7 children from private schools who expect to be in this school next year - these have been included. There will probably be more.

Total - - - - - 114

Do you think "additions" to first grade are accurate?

I do not know. This is an average of our first grade additions over the past three years.

Date 4-12-55
